## Mobile Heavy plant engineer

An exciting opportunity to work within a family company based in Lincolnshire with a current turnover of circa £10 million which is currently expanding throughout its core businesses. This job has great potential and offers flexibility to develop the role to ensure optimum solutions through existing experience and knowledge, future training and development and innovation. The successful candidate will be responsible for maintaining, servicing and repairing our fleet of heavy plant to include Suction Excavators, unique Recycling Lorries, Crushers, Directional Drills and Mini Diggers. The role is extremely varied and requires use of own initiative, time management, resourcefulness and problem solving skills as well as a solid base of experience and qualifications with hydraulics, electronics and computer literacy as a requirement.

Ideally suited for an enthusiastic individual with a "can do" attitude who can work as a member of a team and also show personal initiative throughout. The role will include but is not limited to the following: -

- Maintenance regime for all our heavy plant and equipment
- Fault diagnosis on electric and hydraulic systems and resolution
- Plant and equipment repairs
- Data capture and input via toughbooks
- Client and colleague Liaison throughout

Essentials skills required are: -

- Driving licence and skills and understanding of plant operation
- Confident fault diagnosis on electric and hydraulic systems
- Plant servicing experience to NVQ level or similar
- Problem solving skills
- Computer literate as we use tough books for data capture, assistance and to aid in plant schedules
- Genuinely Interested in keeping up to date with new technologies and recommending to the company how this can improve efficiencies in working practices or operations

Primarily working from home the area of service would predominantly be the south east and midlands with lodge and subsistence being provided where necessary. Some training will require overseas attendance.

In return we offer a competitive salary with use of a van and tools, an excellent working environment with flexible management approach, continued development and superb progression opportunities.

*Good Luck.*
